KEY PROJECTS

- Vehicle Transfer Management System

Developed a secure web platform for managing vehicle transfers using PHP, JavaScript, HTML, and CSS. Supported both admin and user dashboards.

- Academic Records Management System (ARMS)

Led a team in developing a comprehensive system to handle student records. Worked on business process modeling and database schema design.

- Smart Filing & Retrieval System

Built a document filing and search platform using Java and MySQL. Included admin-level access control and search features.

- Sales Commission Predictive Modeling

Applied machine learning models (Random Forest, Decision Tree, Logistic Regression) to predict commission earnings based on historical sales data.

- Library Management System (SQL Coursework)

Designed and executed complex SQL queries for managing books, borrowers, and circulation logs.

WORK EXPERIENCE

Freelance Web & Software Developer
June 2023 – Present
- Developed custom websites and apps for academic and business clients.
- Used WordPress, JavaScript, and CSS to build responsive designs.

IT Support Intern – Umurava Fintech
May 2024 – August 2024
- Participated in building a Payroll & HR Management System.
- Worked on onboarding, employee management, and a self-service portal.

CERTIFICATIONS

- Data Analysis Certificate – Udacity
- Digital Skills Certificate – WordPress (MIPC)
- Introduction to Computer Networks – AUCA
- Advanced Network Operations – AUCA
- Operating Systems Fundamentals – AUCA

LEADERSHIP & ACTIVITIES

- Team Leader, Peacocks PL/SQL Oracle Project
- Volunteer Tutor, Coding & Database Basics at AUCA
- Member, ACM Student Chapter (AUCA)

CORE COMPETENCIES

- Effective communicator (written & verbal)
- Strong team collaboration and leadership
- Organized, goal-oriented, and detail-driven
- Self-motivated with fast learning ability
- Confident working independently and under pressure
